Professional Summary

Full-stack developer with 1+ year of production experience. Built Midrate.in — a multi-sided B2B/B2C/C2C marketplace with Razorpay escrow, real-time offer negotiation, 8 role-based ERP dashboards, and a Sanctum REST API for a Flutter app. Designer-developer hybrid: design products in Figma and ship them as production code. AI-paired workflow daily (Claude, Cursor, Copilot).

WORK EXPERIENCE

- Designer-Developer (Sole), TeraMed Private Limited**
• Own end-to-end product delivery as the only designer-developer on a 17-module ERP and supporting tools used by 26+ organisations.
• Design products in Figma and ship them as production code (Laravel 12, Livewire, Filament v5, Tailwind, MariaDB) — no design-to-engineering handoff. Maintain a 30+ component design system.
• Pair daily with AI tools (Claude, Cursor, GitHub Copilot) — direct architecture, write prompts, review every diff. Quality stays mine.

03/2025 – Present
Chennai, India
- Full Stack developer Intern, Shiash Info Solutions**
• Full Stack Developer Intern with hands-on experience in building responsive web applications using Java, Spring Boot, MySQL, HTML, CSS, JavaScript, and Bootstrap. Worked on frontend and backend development, REST API integration, database management, bug fixing, and UI implementation while collaborating with the development team to deliver scalable and user-friendly applications.

04/2024 – 06/2024
Chennai, India

EDUCATION

- B.E. Computer Science Engineering,**
Coimbatore Institute Of Engineering and Technology

2021 – 2024
Coimbatore

SKILLS

Backend

DomPDF, Eloquent ORM, Filament v5, Laravel 12, Maatwebsite Excel, MVC, OOP, PHP 8.2, Razorpay, REST APIs, Sanctum, Spatie (Permission, Media Library, Backup)

Database & Infra

Cloudflare R2, Laravel Scout, MariaDB, MySQL, Postmark, Railway, Redis, Render, Sentry, Vite

AI Workflow

Chatgpt, Claude, Cursor, Gemini, GitHub Copilot — daily pairing for architecture, code review, debugging

Frontend

Alpine.js, Blade, Chart.js, Cropper.js, CSS3, HTML5, JavaScript, Leaflet.js, Livewire 3, React, SortableJS, Tailwind CSS, TypeScript (basic)

Design

Adobe Photoshop, Blender 3D, Design Systems (30+ components shipped), Figma (Variables, Components, Auto-layout), Illustrator

Approach

AI-first development, Designer-developer hybrid, End-to-end product ownership, Production debugging, TALL stack

PROJECTS

Midrate.in — Multi-Sided B2B/B2C/C2C Marketplace

- Three-tier marketplace (B2B/B2C/C2C) with smart purchase-mode engine, Razorpay escrow (atomic DB transactions, state machine: held fi released/refunded), and real-time offer negotiation (9 notification types via 20s Livewire polling).
- Geolocation stack: Haversine radius search, draggable Leaflet pin, Nominatim reverse geocoding, OLX-style auto-prompt. Laravel Scout full-text search.
- Sanctum REST API (11 controller groups) backing a Flutter mobile app. Designed UI in Figma + implemented in production — no handoff. GDPR + IT Rules 2021 compliant.

Built a multi-sided marketplace platform (Midrate.in)— 8 Role-Gated Enterprise Dashboards

- 8 role-gated admin dashboards (Super Admin, CEO, Manager, Finance, HR, Support, Sales & Marketing, Marketplace Admin) — each with own URL prefix, middleware, and Livewire modules. Covers payroll, KYC, escrow, disputes, listing moderation, fulfilment, and warehouse.
- Cross-module workflows (orders fi logistics fi finance) with clean state transitions; Filament v5 tooling lets non-tech staff manage data.

Enterprise Resource Management Platform — 17-Module Enterprise System

- Sole designer-developer for 17-module enterprise ERP — Vendors, Contracts, Finance, Assets, Seating, Room Bookings, Maintenance, Inventory. Built and maintain 30+ component design system (Figma fi Tailwind/Livewire).
- Resolved 8 critical production bugs in legacy codebase; implemented session-based auth, Redis caching, multi-role access control, Spatie Media workflows.
